

Rommel Rudolf Dela Merced

Software Engineer

Profile

I am a passionate and a results-driven Software Engineer with 2.5 years of experience building scalable web applications using modern technologies. I've contributed to projects across both Agile and Waterfall SDLCs, adapting quickly to team needs and delivery timelines. Seeking a Junior to Mid Developer role (Frontend, Backend, Full-Stack, or Java) where I can apply my strengths in debugging, teamwork, and critical thinking. Known for delivering clean, reliable code and maintaining complete focus on client satisfaction and project goals.

Employment History

Software Engineer II at Tsukiden Global Solutions Inc., Pasig City

June 2022 — March 2025

- Developed and maintained well-tested code for multiple software projects, contributing to faster deployment cycles and system stability.
- Performed thorough manual testing to ensure feature reliability and reduce production bugs; also proposed the adoption of automated testing using Python and its libraries to improve testing efficiency and coverage.
- Led sprint planning and resource allocation within an Agile team, consistently delivering features on time and aligning outputs with business requirements.

Technologies: Java, Spring, Struts, Hibernate, SQL, PostgreSQL, Python, Selenium, Git, GitLab, Linux (Agile & Waterfall environments)

Education

Certificate of Completion 6-month Part Time Full-Stack Web Development Program, Uplift Code Camp, Makati City

September 2024 — March 2025

Technologies: HTML/CSS, Javascript, React, Node, Express, MongoDB, Firebase

Bachelor of Science in Computer Science, Arellano University Andres Bonifacio Campus – Pasig City, Pasig City

June 2018 — October 2022

Details

Metro Manila, Pasig City
