- Git and Github/Gitlab
- Testing and debugging
- Object-Oriented programming
- Java
- SQL
- Python
- HTML/CSS
- Javascript
- React JS
- Node
- Express
- MongoDB

I am a versatile software engineer that works well both as part of team and independently. I am highly educated with capability to deliver on key project milestones. Seeking to secure a mid to senior software developer role.

I am a software development professional with experience in web applications. Consistent in delivering clean, error-free, reliable code to meet current or expected needs. Well-versed in software trends and confident in multiple languages, frameworks and programming tools.

I am willing to learn every step of the way, I have a go-getter attitude.

Motivated software developer with 2.5 years of progressive experience. Energetic self-starter and team builder. Navigates high-stress situations and achieves goals on time and under budget.

EXPERIENCE

Software Engineer II at **Tsukiden Global Solutions Inc.** - Pasig City, Metropolitan Manila

06/2022 - Current

- Wrote and developed new and well-tested code for different software projects.
- Created test cases to support 100% code coverage and improve reliability of the system.
